New Hall Hospital
Part of Ramsay Health Care

About New Hall Hospital

Situated in 14 acres of quiet, landscaped parkland just two miles south of Salisbury, the Georgian Manor House was opened as a hospital in 1980 and currently has 32 patient beds. Part of the Ramsay Health Care group, New Hall Hospital has been serving the community for over 35 years. With refurbishments completed in 2016 and 2017, the hospital now has an in-house MRI suite, four theatres, including a specially designed state-of-the-art spinal theatre, a new 8-bay day case unit, an ambulatory theatre, a new car park and a re-furbished outpatients department

New Hall Hospital is a centre of excellence in spinal and orthopaedic care and offers a wide range of treatments for musculoskeletal conditions of the spine, shoulder, elbow, hip, knee, foot, ankle, hand and wrist. We have 18 musculoskeletal consultants, including 6 who specialise in the spine and 2 podiatric surgeons. Our surgeons specialise in minimally invasive surgical procedures. With our dedicated state-of-the-art spinal theatre, our hospital is the 2nd busiest centre for elective spinal surgery in the UK.

To support our consultants, we have 4 radiologists with expertise in reading musculoskeletal x-rays, MRI scans and CAT scans. We also have a professional team of physiotherapists who help our in-patients in their post-surgery rehabilitation.

New Hall Hospital welcomes self-funding patients, patients with private health insurance and NHS patients who choose New Hall Hospital through the NHS Choose and Book (E-Referral).

Please visit our website www.newhallhospital.co.uk

Referring self-funding patients

For patients choosing to self-fund their treatment, we accept referrals from musculoskeletal health care professionals (MSK HCPs), ie physiotherapists, osteopaths, chiropractors and podiatrists, as well as from GPs.

How to refer a self-funding patient

Use our Ramsay Online Referral Portal:

www.ramsayhealth.co.uk/patientreferral

Username: Ramsayonline Password: Ramsaygp

When your referral is received at New Hall Hospital, your patient will be phoned and offered an appointment. This is usually the same day that the referral is received.

Finance is available for self-funding patients. More information is available on our website: www.newhallhospital.co.uk/patients/private-patients/self-pay/finance-options

Initial consultations start from £180.

When referring a patient who has had x-rays or scans previously, please state on the referral form where these were taken and New Hall Hospital will request them prior to the patient's appointment.

Referring to Radiology

When referring a self-funding patient to New Hall for an MRI, please use the Ramsay Health Care Imaging Request Form which can be downloaded at

<https://www.newhallhospital.co.uk/referral-zone/resources>

Enquires can be directed to the Radiology Manager on

01722 422 333 ext. 169

Contact numbers for patients

Self-funding patients can receive an estimate cost for treatment and time to appointment by calling 01722 442 301.

Patients with private health cover should speak to their insurance company to receive an authorisation number. For other enquiries, they can call our Private Patient Managers on 01722 424 054 or 01722 424 064.

Fixed cost care

New Hall Hospital offers surgical procedures on a fixed cost basis, which enables patients to know the exact cost of treatment before they consent for the procedure. Fixed cost care packages include all the hospital costs for performing the surgery, the consultant surgeon and consultant anaesthetist fees.

If patients wish to be referred to New Hall as an NHS patient, they should speak to their GP to see if New Hall is an option for them and ask to be referred here. Every NHS patient has the right to choose a private provider for their NHS treatment.
